

Our Newest Offerings - CMS Web Development

Xplore is now developing CMS Web Design services, also known as Content Management Systems. This is significantly different from what you have been accustomed to in web development, and allows you to easily control and manage your website without extensive knowledge of html. If you are interested in the most progressive and powerful web solution on the market, our CMS Web Design is for you. Talk with us about this to better understand the power and flexibility of CMS by sending us a site mail or call us at 970.224.2000

Some of the advantages of Xplore CMS Web Development over traditional HTML are:

- • You don't want to have to pay outrageous fees every time you want to change your site, or make a simple type correction
- • You want to do it yourself in the time it takes you to grab a cup of java and read the news
- • You want features like newsletters, forums, blogs and galleries
- • You want to be part of the Web 2.0 revolution
- • You want inexpensive or free extensions and modules to customize your site
- • You want 30,000 developers creating these affordable extensions for you
- • You want W3C valid web sites, built for tomorrow
- • You want honest fees for generating incredible dynamic, easily updateable content that your visitors keep coming back for.
- • You want ridiculously good customer service.
